

Insect Study

Merit Badge Workbook

This workbook can help you but you still need to read the merit badge pamphlet (book). No one can add or subtract from the Boy Scout Requirements #33215. Merit Badge Workbooks and much more are below: [Online Resources](#).

Workbook developer: craig@craiglincoln.com. Requirements revised: 2008, Workbook updated: September 2008.

Scout's Name: _____ Unit: _____

Counselor's Name: _____ Counselor's Ph #: _____

1. Tell how insects are different from all other animals. _____

Show how insects are different from centipedes and spiders.

2. Point out and name the main parts of an insect.

6. Compare the life histories of a butterfly _____

and a grasshopper. _____

Tell how they are different. _____

7. Raise an insect through the complete metamorphosis from its larval stage to its adult stage (e.g. raise a butterfly or moth from a caterpillar.)* _____

**Some insects are endangered species and are protected by federal or state law. Every species is found only in its own special type of habitat. Be sure to check natural resources authorities in advance to be sure that you will not be collecting any species that is known to be protected or endangered, or in any habitat where collecting is prohibited. In most cases, all specimens should be returned at the location of capture after the requirement is met. Check with your merit badge counselor for those instances where the return of these specimens would not be appropriate.*

8. Observe an ant colony or a beehive. Tell that you saw. _____

9. Tell the things that make social insects _____

different from solitary insects. _____

10. Tell how insects fit in the food chains of other insects, fish, birds, and mammals. _____

11. Find out about three career opportunities in insect study.

Pick one _____

and find out about the education, training, and experience required for this profession. _____

Discuss this with your counselor, and explain why this profession might interest you. _____
